on the selection of the best bid in the procedure
No. 28/2023

Project concerned: Development of bioinks for 3D bioprinting based on chemically modified porcine dECM, enriched with recombinant hybrid proteins, nanomaterials and synthetic polymers" co-financed under the TECHMATSTRATEG III.

1. Conducting the proceedings:

Foundation for Research and Development of Science
Al. Prymasa Tysiąclecia 79A
01-242 Warsaw
Phone: +48 518 785 622

2. Order description:

The subject of the inquiry is the purchase and delivery of 3D printer, which will be used to perform industrial research and development works planned under the implementation of the project.

3. Result:

We would like to inform you that the Bid Commission on April 6, 2023 selected the most advantageous offer submitted by the company:

Cellink Bioprinting AB
Langfilsgatan 5, 412 77 Goteborg
NIP: 5593146169

4. Substantiation:

The Bid Commission evaluated one (1) offer submitted for formal and substantive evaluation, as a result of which the offer of Cellink Bioprinting AB based in Goteborg was selected. This offer obtained the highest number of points offering the best implementation conditions and meeting all the criteria of the request for proposal No. 28/2023 (including the lowest price), which resulted in the award of 100 points.

The Contractor's Selection Report was prepared on April 6, 2023.
